1. Clinical Impression

Patient successfully completed their routine 3-month follow-up visit. Demonstrated excellent daily adherence with no reported gastrointestinal or systemic adverse reactions. eGFR and routine panel tests confirmed non-reactive.

2. Treatment Plan & Refills

- **Emtricitabine 200mg / Tenofovir Disoproxil Fumarate 300mg:** 1 viên/ngày vào cùng một khung giờ cố định.
- Tự động gia hạn cấp phát gói thuốc 90 ngày tiếp theo (giao hàng kín tận nơi).
- Lịch xét nghiệm kit tại nhà đợt tiếp theo: Tháng 6 năm 2026.

3. Lab Results Summary

Test	Result	Reference Range	Flag
HIV Ag/Ab Combo	Non-Reactive	Non-Reactive	Normal
Creatinine (eGFR)	104 mL/min	> 60 mL/min	Normal
Hepatitis B Surface Ag	Non-Reactive	Non-Reactive	Normal
Chlamydia / Gonorrhea NAAT	Not Detected	Not Detected	Normal
Syphilis (RPR)	Non-Reactive	Non-Reactive	Normal

4. Follow-Up & Next Steps

- Continue current daily regimen; no dose adjustment needed at this time.
- Next quarterly telehealth check-in: on or before June 10, 2026.
- Home lab kit for next quarterly panel will ship automatically 2 weeks prior to due date.
- Message your care team any time through RCare+ if side effects or adherence issues arise.
